A Robotist's Perspective

Technology, Innovation, Inclusive Growth – Where are we now?

The Technological Race is on

- Who's first to...?
- Who can do that better?
- Focus on technology, engineering, science
- Disruptive technologies in the pipeline
 - Not overnight, but in 5-10 years time

A Robotist's Perspective

Technology, Innovation, Inclusive Growth – Recommendations

Opportunity through collaborative robots

- Keep focus on humans

Technological maturity won't happen overnight

- Use time before disruptive changes apply to consider

Support standardization efforts
