Towards effective science-industry co-creation

Our perspective to Co-Creation
Who we are

• Founded in 1999 by Rafael del Pino y Moreno.
• With the aim of creating value for the Spanish society by supporting excellence, individual freedom, leadership, entrepreneurial spirit and innovation.

• Our mission
  • To train Spanish leaders
  • To contribute to the development of Communities of Value of excellence, that engage in the challenges facing our society
  • To strengthen the national innovation system by assuming the role of knowledge brokers that bridge existing gaps between different communities
  • To co-create and diffuse knowledge about socioeconomic issues that affect our country and its future
1. Creation of a **space** of individual freedom and **trust** that connects the talent of the civil society
2. Increasing the chance of productive connectivity and **opportunities for co-creation**
3. Support of current and future **talent**
4. Detecting **areas of common interest** for collaboration
Activities

Leadership trainings in Spain and abroad

Development of “Ba” and CoV

Knowledge creation and diffusion
